CARDIO KICKBOXING

Box and Tone. Fun and Challenging combination of Kickboxing and Strength training. It's an effective total body workout. Improve your endurance, strength, speed, coordination and flexibility as your kick, punch and hook! For this class you will need weights and mat only.

VINYASA FLOW YOGA

Vinyasa Flow yoga emphasizes the sequential movement between postures, coordinated with and guided by deliberate breath.

BOOTY PUMP

Glutes workout, using Resistance Bands.

You can bring your own Band if you have one, if not, we will provide.

This class focused on your Glutes, Hamstrings and Hip abduction Muscles.

BARRE FUSION

Uses elements of ballet and Pilates to sculpt a long, lean body. Exercises are done at the barre, on the floor, and on the mat to target every muscle, even ones you never knew you had.

COMPLETE CYCLE

Is a high energy 45 min cycling class led by a motivating instructor and accompanied by the instructor's unique playlist of powerful and energizing music.

The BOOT CAMP: Made to improve your cardio and strength using various different exercises : kettle bell, dumbbell, body weight, Stability balls, Bosu Balls.

This class is about alternating short periods of intense or explosive work with brief recovery periods.

PULSE

Full body workout with using light weights with lots of repetition. To the beat of the music.

Sneakers recommended.

ZUMBA

Dances inspired "Fitness party" using an amazing music and moves to burn your calories.

STRONG CORE

Mix of exercises that build a strong core toned abs and improve your joints mobility and full body flexibility and range of motion.

PILATES MAT (all levels)

A mind-body class focusing on core by using balance, strength and flexibility, integrating specific Pilates training and other strength techniques.

15/15/15 (low-impact)

15 minutes cardio, 15 min strength, 15 min core.

AQUA AEROBICS

A low impact but high intensity water aerobics class where no swimming skills are needed. This class is designed to improve flexibility, range of motion, strength, muscle tone and cardiovascular endurance while using the resistance of the water and remaining easy on the joints.

BALANCE

Balance training involves doing exercises that strengthen the muscles that help keep you upright, including your legs and core. These kinds of exercises can improve stability and help prevent falls.

BODY STRENGTH (low-impact)

A unique blend of the most effective and efficient mix of weights, Pilates, yoga and cardio. Tone everywhere while burning hundreds of calories.

TOTAL BODY BLAST (low-impact) This is a high interval training class that incorporates challenging cardio segments, resistance training, and intense core work using diverse fitness equipment to blast your body into shape fast.

AEROBIC STEP DANCE (all levels)

Aerobic dance exercise is any physical activity that makes you sweat causes you to breathe harder and gets your heart beating faster than at rest. Aerobic dance strengthens your heart and lungs and trains your cardiovascular system to manage and deliver oxygen more quickly and efficiently throughout your body.
